For low-medium wind speeds
NCHRP-350 Approved with Roll-Up Signs
NCHRP-350 Approved with Plastic Substrate Signs
NCHRP-350 Approved with .080, .100 & .125 Aluminum Sign

Barricades

Type III Barricades

Used for road closures, detours, and major work zone blockages. TXDOT provides detailed component standards: multi-rail (3-rail) barricade assemblies; rails, posts, skids, stiffeners, and mid-rail stiffeners. Skid-mounted or fixed-post options.

Folding Type I Barricades

Excellent across a variety of applications and work sites. Lightweight, portable with folding legs.

A-Frame Type I Barricades

No-nonsense solution with two A-frame legs and a single reflective rail.

Plastic Drums

TxDOT-Approved Channelizing Devices: These heavy-duty standard orange/white stripe drums get the job done. Drum-mounted sign substares.
